

As a teacher/educator, you are essential to our community, now more than ever. We know this year your job has been harder than ever, and that's why State Farm wants to help. You've had to come up with new and innovative ways to reach your students, and we know you might need a little assistance to make some of your innovative ideas a reality.

To inspire and reward classroom innovation, State Farm is here to help with a new grant opportunity! [State Farm® Teacher Assist](#)

The [State Farm® Teacher Assist](#) program is giving away \$100,000 to teachers across Texas. Forty teachers in Texas will win a \$2,500 grant to implement their innovative ideas.

The submission phase opens on January 11 and ends on January 15 or when 200 submissions are reached.

You can prepare now by going to the [website](#) to download the rules and preparing your answers to the following three questions:

- **If you receive a \$2,500 grant, how will you use the funding to resolve your challenges?**
- **What opportunities will this funding help your students realize?**
- **How can the program be replicated by teachers at other schools?**

The winning teachers will be announced on Feb. 1, 2021 on [State Farm® Teacher Assist](#).

I appreciate everything you do to inspire our youth and help them reach their full potential!

Teachers/ educators like you are vital to our community and you deserve our full support.

Best of luck!

Your neighborhood State Farm agent,

Freddie L Noble
