Don’t know your size?

What you will need
- Standard tape measure
- Fitted undergarments
- Someone to assist

Tips & Tricks
- Keep tape taut, not tight
- Measure loosely for wearing ease
- Measure twice for accuracy

How to measure

Chest
Measure around the fullest part of the chest, keeping tape parallel to the floor

Waist
Bend to side and measure where body curves (even if you wear your pants lower)

Hips
With feet shoulder-width apart, measure fullest part of hip/thigh area

Need a specific custom size or change to a garment? Just ask!
We have an in-house custom sewing team that can help with any changes to the standard sizes that you need.
Charts below:
Use this charts below to determine your size. If one of the measurements is in between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit. If your measurements for waist and hips correspond to two different suggested sizes, order the one indicated by your hip measurement.
