Participant Safety on Zoom

Participant safety is a top priority for HOSA. Zoom.us is the video and virtual conferencing platform that will be used to conduct many 2021 Virtual Texas HOSA State Conference components, including competitions and area officer candidate interviews. Several restrictions will be used to protect participants in the platform. Every individual competition room used will have a unique passcode. That passcode will only be made available to judges and participants in that round. The ability to use Zoom backgrounds will be turned off. The ability to share screens and file share through the chat will be turned off. Waiting Room features will be turned on for all events, so only authorized competitors and staff will be granted access. The Private Chat feature will be disabled to prevent communication that event moderators cannot see. All judges and competitors will be given a strict naming process that must be used in each event (e.g. Competitor Suzy Smith) so that all persons may be easily identified. Finally, conference staff and competitive event volunteers will be monitoring all zoom rooms during competition. They will quickly remove anyone violating competition policy. Competitors may report disruptions to the conference helpline, where staff will be prepared to handle any problems immediately.
