

2021 Virtual Texas HOSA Conference

Update on Release of Login Credentials

To better serve all 7500 HOSA competitors that will be taking an online test, we have decided to release login credentials on a schedule. By doing this, we will have enough time to assist those whose email delivery is blocked by their school district, or those who have incorrect emails entered in the system.

If a student does not receive the email after the release of login credentials using this new schedule, the student should email Texas HOSA at texashosa@texashosa.org. Use only this email address to report non-receipt of login credentials. The STUDENT should email directly and individually. In order to receive a quick reply, students should include in their email: Name, contest, school and area.

Please share this login credential schedule and full conference schedule with your students so they can review the testing schedule.

Testing Reminders:

1. Read each question carefully.
2. Make sure you select an answer for every question.
3. Be mindful of the timer and give yourself enough time to check your work.
4. Some tests will end with a short essay question. This question will act as a tiebreaker in case of a tie.

Troubleshooting:

1. Once you begin the test, do not navigate away from the test page for any reason. If you do, you may not be able to complete the test. If you accidentally close the browser, you should be able to log right back in as long as there is time left on your exam.
2. If you run into technical issues, do not log out or close your browser.
Call 877-728-0150 or email texashosa@texashosa.org
3. Once students have logged in, the test time will start, so please be ready to take the exam if you type in your credentials. There are two screens prior to the questions - test taking instructions and a "wait for proctor" screen. Please **disregard** the "wait for proctor" screen - your test will begin within a few moments of this screen appearing.

Update on Release of Login Credentials Schedule

Monday January 11, 2021 @ 10am CST
