Post Award Information

Scholarship Recipients should provide proof of 30-day enrollment at a college or university. Proof must come from the college to the Executive Director designee as instructed in the scholarship letter presented to the student with the scholarship certificate.

The Registrar or Financial Aid Office will send a memo on school letterhead, which verifies the recipient's enrollment for at least 30 days at the college or university. Upon receipt of this verification the Executive Director will promptly process the request for payment form and send to the CPA, to send the scholarship amount to the college or university.

The school will credit the student's account with the scholarship amount. This process usually takes at least six weeks from the time the verification letter is received.
