

Texas HOSA Handbook:

Section H: Competitive Events Program

This section contains:

- Competitive Events
- General Rules and Guidelines
- Advisor Guidelines for Students
- Reasonable Accommodation Statement

Activities and procedures within HOSA-Future Health Professionals, Texas Association are governed by the philosophy of simple fairness to all. Therefore, the policy of HOSA-Future Health Professionals, Texas Association is that all operations will be performed without regard to race, religion, sex, national origin, and other characteristics illegal as well as reasonable accommodations with disabilities and accessibility requirements on public accommodations.

Understanding the Competitive Events Program

HOSA's origins are in the curriculum

When HOSA was created as an integral part of the curriculum, it was designed to support and reinforce classroom learning outcomes – not the other way around.

HOSA's purpose is learning

What HOSA does is motivate students to learn. HOSA conferences, events, and partnerships all motivate health science students to do more than would be reasonable within the classroom walls.

HOSA's learning value reaches program content and beyond

HOSA members learn health science education competencies and they learn them well. They also learn about leadership, responsibility, teamwork, communication, and other “real world” skills.

Guiding Thoughts

- The priority is to offer the best learning experience possible through health science education. HOSA is a part of that process.
- The value of competitive events happens before the competition. It is the learning that takes place in the days, weeks, and months before the competition.
- The competitive events program is designed to be comprehensive, challenging and efficient with minimal duplication of effort.

Misguided Thoughts

- “But that’s the way we’ve always done it...”
- “Since I’m right and you disagree with me, you must be wrong!”
- “We should reward everyone!”

**The medals are NOT the goal.
They are the tools we use to motivate students to achieve their goals.**

Competitive Events Program

HOSA members are encouraged to take full advantage of the International and Texas HOSA Competitive Events Program, a constantly expanding and improving series of healthcare-related competitive events. To participate in a competitive event, a student must be a secondary, post-secondary/collegiate or middle school active HOSA member. The top 3 competitors at the area conference will advance to state competition and the top 3 competitors at state conference will have the opportunity to compete at the International conference. **HOSA members may enter only one competitive event.** In addition, competitors may participate in as many Recognition Events as they wish.
