

Science Expo 2016 at the University of Texas Health Science Center San Antonio (UTHSCSA) will happen in the near future. The event will be held Saturday, Nov. 12 from 8:00am – 12:00noon. We are excited to provide this FREE event for high school students to learn about health career opportunities. The day is filled with hands-on activities and interactive sessions for students to learn from and enjoy! Students can register individually or as a class or as a group/organization. Classes and groups must be accompanied by a teacher sponsor and have appropriate numbers of chaperones. A student/chaperone ratio of 10:1 is strongly recommended. If your school cannot commit to bringing a group, individual students who are over the age of 16 can register and attend as an individual. Once we receive your initial registration information, we will send you additional details about parking and event logistics.

Thank-you for all you do to prepare students for their futures! We appreciate your efforts a great deal and look forward to opportunities for future educational partnerships. Please contact Irene Chapa for the registration form at chapai@uthscsa.edu or via phone to 210-567-3941. Please also note that once capacity has been met (1,500 students), the event registration will close; so register as soon as possible!

SCIENCE EXPO 2016

Saturday, November 12, 2016

**8:00 am to 12:00 pm at the
UT Health Science Center San Antonio**
