

# TEXAS HOSA AND STEM PREMIER

## STEM Premier

HOSA is proud to partner with **STEM Premier** to provide our members with the opportunity to connect with colleges, universities and employers. STEM Premier assists all levels of STEM talent in identifying career pathways, educators in recruiting top talent to their schools, and employers in developing a stable, continuous talent pipeline.

Through STEM Premier HOSA members will have the opportunity to apply for scholarships and internship opportunities, submit their original work for competitive events, and earn badges for recognition and accomplishments.

### How It Works

[CREATE YOUR PROFILE](#)

#### 1. Create

Students create a profile showcasing everything about themselves: skills, talents, experiences and more.

#### 2. Search

Schools and companies search for, identify, and track the next generation of college and career-ready talent.

#### 3. Connect

Conversations are exchanged between talent seekers and upcoming students--establishing direct connections earlier.

#### 4. Thrive

Relationships are built, students discover new opportunities, and colleges and companies deepen their future talent pipeline.
